

Additional information on accommodation since 17th of May in Schleswig -Holstein Region

St. Peter-Ording

Dear guests,

for the district of Nordfriesland and Schleswig - Holstein and therefore also St. Peter-Ording, eased regulations in dealing with COVID-19 apply since 17 May 2021.

We look forward to welcoming you. Strict requirements must be observed for your existing booking or for your new reservation at our hotel. We have summarised these for you in this information sheet. We kindly ask you to read the information thoroughly and to sign below as agreement.

1) If possible, please arrive already with a negative Corona test result that is not older than 48 hours. A follow-up test must be submitted once after 72 hours. If a pre-test is absolutely not possible for you, you can have a test done on site if necessary. A test centre is located at Am Kurbad 2, directly in the hotel "Strandgut Resort". You can book an appointment at www.schnelltest-spo.com. Please refer to the website for capacities and opening hours. The test result must be presented at check-in. All persons including children over 6 years of age are required to take the test.

2) With your arrival, you agree to present us with a new negative test result once after 72 hours. If the negative test result is not presented to us, you will have to pay the corresponding cancellation costs (90% cancellation fee) for the unused nights) and leave immediately.

3) Our current hygiene concept can be found on our website at <https://www.aalernhues.de/massnahmen-covid-19/>.

4) For fast and complete contact tracing in exchange with the health authorities, both our restaurants "Hedwigs Esszimmer", "AALERNHÜS Restaurant" and the "Carls Lobby & Bar" as well as the gastronomy in the entire town use the Luca App. Ideally, you should already install the app on your smartphone and register in just a few steps when you arrive at the hotel. We will also be happy to help you with this on site. If you would like to visit our in-house restaurants "Hedwigs Esszimmer", the "AALERNHÜS Restaurant" or the "Karls Lobby & Bar", your existing negative Corona test already deposited at our reception will also apply here. In principle, you do not need a negative Corona test to present in the outdoor gastronomy outside our hotel. For indoor gastronomy outside the hotel, you also need the LUCA app.

5) Should you test positive for the corona virus, you must leave independently with your car at your own expense. If necessary, the health authority may decide to quarantine you in the hotel, in which case you will have to pay the costs for the extension including meals.

6) You can find the new state regulation, which applies from 17.05.2021, here:

https://www.schleswig-holstein.de/DE/Schwerpunkte/Coronavirus/coronavirus_node.html

Should the case arise that hotels have to close due to an increasing incidence, all guests must leave immediately. Recourse claims are thereby excluded.
